On Voyage

Sublime Galleria in UB City, known for its penchant for presenting a mélange of art forms, is back with yet another unique exhibition: 'The Voyage' by art curator Sonu Mulchandani. This collection stands out as it endeavours to present a novel blend of history and art, namely the works of sailors, discoverers, and cartographers who depicted their explorations through maps. Given the nature of the collection, 'The Voyage' enjoyed the attention of an ardent audience. Art lovers as well as history buffs were present on opening night, July 19.
