

## Season's greetings

Come, witness Bengaluru in all its different hues and nostalgic moments. An ongoing exhibition called Grishma reflects on how the city has evolved, and why it's truly called the Garden City. It will showcase a collection of paintings done by contemporary artists Jayant B Hubli, Madhusudhanan, Shankar Lokar and MS Sundar Murthy. While Lokar expresses his love of spontaneity, shape, light and colour through his paintings, Hubli draws his inspiration from the myriad natural patterns around him. On the other hand, Murthy depicts the diverse culture and lifestyles of India in his work, through landscapes, portraits and live art works by travelling to the interiors of India.
